- Minor concern: taking pictures of toys
- accept/decline offer

- Search feature
  - By value/price
  - By toy type
  - By brand
- How do we trust users? Reviews?
- Are we responsible for how the exchange happens?
  - Mail
  - In person
  - Neutral public third location
  - Local library
- Each member of site has a unique identifier
- Generate unique transaction number
  - Tokens - oauth tokens
  - UUID system
    - Recognize people and trades/swaps
- Drop off and pick up
  - Do not actually have to meet face to face

#### Project Name Ideas

- Jouet ("toy" in French)
- Teddy Bear
- Giocattolo or Balocco ("toy" in Italian)
- Toy Trade
- Bear Trade
  - Bear rhymes with fair
